

Feedback from the participants of the workshop conducted from 13.09.21 to 28.09.21

We would like to express our heartfelt gratitude to our beloved Principal Sir, respected Professor Amit Kumar De for giving his consent in arranging such a well organized and lively workshop for the students of B.Ed Department (3rd Semester).

We would also express our heartfelt gratitude to our Departmental Head Dr. Amit Kumar Bera for such a praiseworthy endeavor and also our Departmental Professors for their diligent presentations. This is the first time that B.Ed Department of Prabhat Kumar College, Contai is arranging such a workshop for the sake of the students.

The Workshop started on 13th September with a lot of zeal and enthusiasm. It was our first interaction with our classmates since admission. The Covid-19 pandemic brought turmoil into our lives. We all stayed into our house keeping ourselves socially disconnected to minimize the spread of the virus. Our situation was like a 'fish out of water'. All of us were exhausted both physically and mentally. This meet up in the form of workshop made all of us extremely blissful.

- 13.09.21- We learned about Bloom's Taxonomy. The unique way of presentation was so mesmerizing. In the second half, we learned about how to Frame Questions which opened a new arena to learning education.
- 14.09.221- Making of Blue Print was taught. Though initially it seemed to be confusing but our teachers made it clear and we asked them questions repeatedly and they answered them without hesitation.
- 16.09.21- On this day we came to know about various Teaching Aids, many of them was unknown to us. The explanations given were simple and lucid.
- 20.09.21- We learned about Simulated Teaching and Teaching Skills. Micro Teaching and Simulated Teaching differed slightly was taught on this day. Motivating examples relevant to the topic was focussed, which made us more enthusiastic, also the Powerpoint presentation explained the topic in a nutshell. Teaching Skill was explained in a detailed way with a marvelous and fantastic way of presentation. Kudos to the unique way of presentation.
- 21.09.21- Teaching Skills continued on this day. Gestures modulating voice, speaking tones all were shown on this day to make a teaching an attractive one. Examples on real life situation was stated to add value to the topic.
- 22.09.21- Methods of Gardening was taught with many flowering plants shown on the giant screen. We were really happy and heard with curiosity.

- 23.09.21- Concepts on Stock Register, Students Register was given, and we all excitedly made an Attendance Register when all of us were asked to do.
- 24.09.21- Various handicrafts were shown. All were excited and wanted to do such things on their own. Teaching was also discussed. The colourful presentation created imprints into our minds which is still vividly recollectable from our memory.
- 25.09.21- This day due to technical issues class could not be conducted but all the arrangements were made to take the class.
- 28.09.21- Learning Design- Part I was discussed so simply yet attractive. All were focused to the topic and the Traditional Model was taught by explaining Archimedes Principle. The sequential arrangements of pictures in the slides was unforgettable and very relatable to our surroundings.

All of our respected teachers have worked really hard to make the workshop a successful one. We could have a deeper understanding of the topics discussed in the workshop but due to this deadly pandemic we could not do so. Making a 3 months course into a few slides emphasizing the important points really needs a great toil. Kudos to all our teachers.

Date- 28.09.21
