Career Counselling Report – 2022

One day Career counseling session was organized by the Department of Nutrition on 15th June, 2022 (Wednesday) for B.Sc. 6th Semester honours students between 3.00 pm to 4.30 pm to make them aware about various opportunities and trends in the field of Nutrition after graduation. In this session there is no special resource person, the entire session was conducted by our departmental teachers. Firstly, we started our session by discussing the M.Sc. entrance examination and the institutions providing M.Sc. in nutrition especially in West Bengal. As they were undergraduate students, this information is very relevant for them. Here, we also considered different competitive examinations especially SET, NET etc. Then we gave a brief introduction about the various opportunities and scope in the field of Nutrition. We suggested various ways to opt the career in one's life depending on the capabilities and potential. We mentioned how to focus on the chosen career and what are the efforts to be put in to make the dream true. We explained by giving examples of various successful people, how they achieved the status in spite of having lack of facilities and financial support.

All the students were highly motivated and got to know about various opportunities after completing their graduation especially post-graduation. The session was very helpful as they came to know different facts and cleared their doubts. It was a very informative day for the students.
