

Our Simple Universe: Known And Unknown

Speaker: Anirban Roy

Anirban Roy is a post-doctoral fellow working with Prof. Nick Battaglia at Cornell University, USA. He finished his doctoral studies from SISSA in Trieste, Italy on the observational cosmology. He is currently investigating how the first stars and galaxies formed and how do they evolve over cosmic time and he is also involved with future experiments such as Simons Observatory, CMB-S4, and CCAT-prime (Chile) which will unravel many unknown facts of our Universe.

Light refreshments and tea will be served after the talk.

12 noon, Saturday,
21st December, 2019
Venue: Seminar Hall, Vivekananda Bhawan
Department of Physics (UG & PG)
Prabhat Kumar College, Contai
